COMPANY PROFILE 2023

**Vawana Electrical
Engineering Works**

Warm Welcome from Vawana Electrical Engineering Works

Our scope of Work includes – Engineering, Procurement and Construction (EPC) Services in Field of Power Engineering.

We provide solutions for Electrification, Overhead and Underground Distribution Lines, Switchgear Panels, Substations, Switchyards, Transmission Lines with Energy Auditing, Operation and Maintenance.

Our Vision

Transporting Happiness in form of electricity.

Our Mission

Grow and develop into one stop electrical engineering solution companies in Nepal.

Message from Founder

Vawana Electrical Engineering Works (VEE Works) was established in 2019 with the purpose of "Empowering world and transporting electricity safely ". It is a young organization growing rapidly and emerging strongly to explore Electrical Engineering activities all around the globe.

Starting from individual entrepreneurship, VEE Works has set a benchmark of a progressive work culture, value added professional conduct and an experience driven by core competencies of expert professions in a span of only 3 years. And the turnover of the company is getting in the impeccable habit of pushing the bar every quarter.

Today its activities cover a whole range of services including Engineering Procurement and Construction, Designing, Project planning and preparation, Panel manufacturing of distribution system, smart metering and a complete building and industrial electrical solution in the energy sector.

VEE Works has an efficient operational system backed by devoted experts with adequate experience. The Competence of our staff, our commitment to high standards and our proven ability to tackle complex assignments even under difficult circumstances have been well appreciated by our clients both inside and outside Nepal. And our team is committed to enhance excellent in project management simplifying processes with continuous improvements.

I take this opportunity to thank our valued customers for their continued patronage and confidence in our services for last three years. We will continue conducting our business in a way that supports our Customers, Vendors, Partners and Employees. We are a group of most passionate individuals near you and our proximity to you enables us to better understand, anticipate and adapt with agility to support your business continuity with high ethical standards in everything we do.

We work together and we win together, creating competitive interest as one.

Prabesh Jha

Founder

NEC registration no: 2642 "Electrical"

Core Values

- Have High Morale
- Hold Accountability
- Be Reliable
- Ensure Health and Safety
- Adopt to Changes in technology

What we Do

EPC contracting for

- Building Electrification
- Industrial Electrification and Automation

With services of

- Panel Operation and Maintenance
- Energy Auditing

OUR PARTNERS

MANUFACTURING

TRADING

IEEF Pvt. Ltd

- Manufacturer of control and relay panel
- More than 10 years of manufacturing experience.

Tools and Machinery:

For manufacturing products, IEEF uses latest and smart machinery. With an aim to exceed the expectations of the clients, the company offers best-in-class products to the clients.

Range of machinery asset:

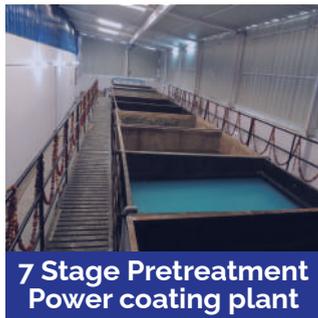

CNC LASER

CNC-Hydraulic Shearing Machine

CNC-Hydraulic Press Brake

7 Stage Pretreatment Power coating plant

Conveyorized Powder coating

and many more...

We aim to use high quality machinery products for smooth production of electrical boards to ensure recommended quality of final product

Starlit Enterprises Pvt.Ltd

- Established in 2019.
- Supplier of LV Electrical Products.
- Major product includes Smart metering and KNX System.

Our Major Clients:

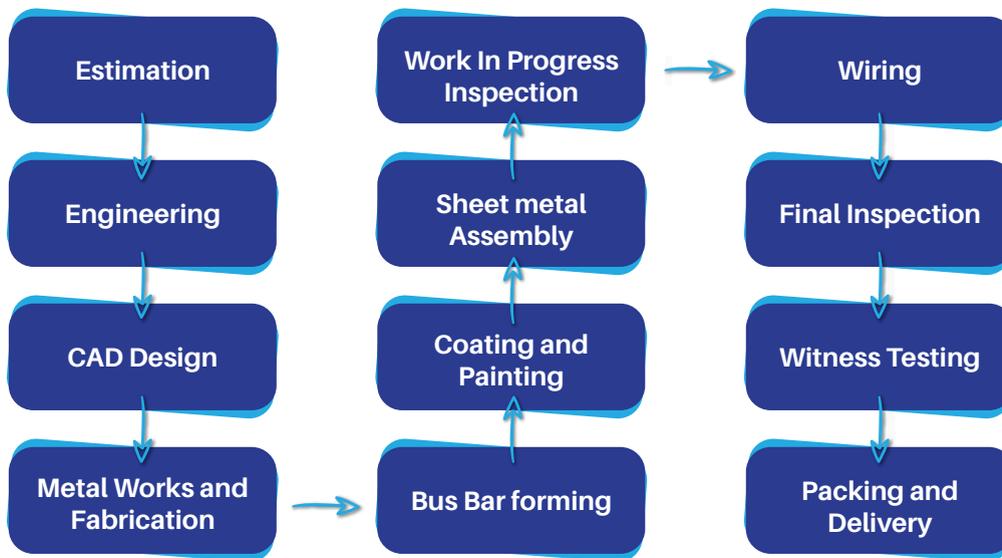

SERVICES

Industrial Electrification

Our Industrial electrification includes design and manufacturing of low voltage main switchboards, capacitor banks, generator synchronizing boards, distribution boards, withdrawable and fixed motor control centers, feeder pillars, meter panels and tap off units.

Our Production Process:

Commercial Electrification

We provide indoor/outdoor electrification solution. Our services range from basic user desired lighting to extreme lightning protection along with works like Energy management, Building/ industry automation, KNX systems, Security system, Telecom network public address system, CCTV solutions, Access control, Air conditioning solutions, Fire alarm/ detection solutions, operation & maintenance solutions for various commercial building and infrastructure projects such as

Mercantile and service

- Malls and stores
- Car dealerships
- Dry cleaners
- Gas stations

Office

- Professional and government offices
- Banks

Education

- Elementary, middle, and high school
- Colleges

Health care

- Hospitals
- Medical offices

Lodging

- Hotels
- Dormitories

Miscellaneous

- Police stations
- Places of worship
- Warehouses

Residential Electrification

Our “Building electrification” process aim to make buildings to be majorly powered by solar, wind and other sources of zero-carbon electricity.

We promote to use electricity rather than fossil fuels for heating and cooking.

We focus to electrify residents in such a way that it

- Lower bills.
- Reduced maintenance costs.
- Lowers noise for quiet operation.
- Improves ability to control temperature.

PROJECTS

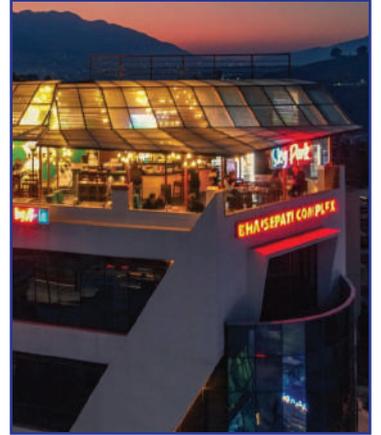

Underground Distribution Enhancement System

132 kV TL Hauxin Cement Plant

Bhaisepati Complex
